John,

I have to say that, choosing Shields as an educational Institution for my professional development in the field of HSE was the best decision i have ever made.

I passed and obtained my NEBOSH International General Certificate in Occupational Health and Safety with a credit level pass from the examination taken in March, 2008 through Shields in just one sitting, and in March, 2009 I also achieved my OCR NVQ Level 4 certification in Occupational Health and Safety also through Shields.

I owe the success and achievements story of my professional development in the field of HSE today to Shields. Shields course fees are reasonable and affordable, great e-learning interactions and a high standard training.

I appreciate the quick response of the course tutors, good supports and their commitment in teaching and also high level professionalism.

My special thanks to Mike Shield, John Jacques, Gina, Sarah and many others for your kind helps and supports.

Without any doubt, Shields are the best educational Institution and would strongly recommend the services.

Many thanks,

Ukegbu Joseph Dip RSA.
