

# NEBOSH International Technical Certificate in Oil and Gas Operational Safety

## Study Time

This course has 55 hours of study time required.

## Course Access

You have access to this course for 12 months from the date of purchase.

## Who it's for

This course is aimed towards those already experienced in the field of Oil & Gas.

## Overview

The qualification focuses on international standards and management systems, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore.

The Certificate also highlights the importance of process safety management in the oil and gas industry. There are no specific entry requirements for this qualification, however it is highly recommended that students have an existing underpinning knowledge of safety issues or have completed a NEBOSH Certificate level qualification previously.

## What can I do?

Completing the NEBOSH Oil & Gas Safety Certificate equips you with the expertise to manage safety in the oil and gas industry.

You'll confidently navigate complex safety regulations, identify and mitigate industry-specific risks, and contribute to a secure and compliant work environment, making you a valuable asset in this critical sector.

\*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.
