Who it's for

This course is aimed at construction personnel and managers with health, safety, and welfare advisory roles.

Overview

The NEBOSH Health and Safety Management for Construction (UK) course focuses on best industry practices for managing and implementing safety management systems.

The Construction Certificate is designed to cover general health and safety issues within a construction context as well as placing emphasis on the specific construction issues that make the industry amongst the most dangerous in which to work.

What can I do?

Completing the NEBOSH Construction Certificate (UK) empowers you with the expertise to manage safety and health in construction.

It qualifies you to assess risks, implement preventive measures, and ensure the well-being of workers, making you an invaluable asset in the construction industry's pursuit of excellence in safety standards.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.
