HSE Managers

Who it's for

This diploma is for those in senior management who are involved in the occupational health and safety strategic planning.

Overview

The aim of this NVQ Level 7 diploma is to provide senior management employees involved in the strategic management of the organisation the skills and confidence to make those decisions that effect change in the business.

This diploma is a high-level, globally recognised qualification which is completely evaluated by each candidates' competency. Evidence of competency is based on real world, on-the-job activities within your current role, this means that you can use previously created documentation as part of your portfolio.

What can I do?

Achieving the NVQ Level 7 Diploma in Strategic Health and Safety Leadership and Management signifies mastery in overseeing health and safety at an organisational level.

Graduates are primed for executive roles like Chief Safety Officers, capable of devising and implementing comprehensive safety strategies to safeguard both employees and the business's long-term success.
