Assistant Managers

Who it's for

This course is for people with health & safety responsibilities, typically in entry and mid-level management roles.

Overview

The NEBOSH National General Certificate in Occupational Health & Safety training course is based on the UK's high standards for health and safety management in accordance with laws and legislation. You'll learn the best practices for implementing safety systems.

This NEBOSH General Certificate course is suitable for those working within the UK

Undertaking the NEBOSH general certificate course in occupational health and safety will help you become a fully qualified and competent health & safety practitioner or safety officer.

What can I do?

This course shows your comprehensive understanding of health and safety in the workplace. It allows you to identify and manage risks effectively, creating a safer work environment.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH International General Certificate in Occupational Health & Safety

Study Time

This course has 96 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Supervisors

Who it's for

This course is for people with health & safety responsibilities, typically in entry and mid-level management roles.

Overview

The NEBOSH International General Certificate in Occupational Health & Safety training course is based on best practices for implementing safety systems. This NEBOSH Certificate course is grounded on the UK's world leading standards.

You'll learn how to apply the best industry standards for managing health and safety systems, in any industry. This NEBOSH International General Certificate course is suitable for those working outside the UK

Undertaking this NEBOSH Certificate course will help you become a fully qualified and competent health & safety officer.

What can I do?

This course shows your comprehensive understanding of health and safety in the workplace. It allows you to identify and manage risks effectively, creating a safer work environment.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH Certificate in Fire Safety

Study Time

This course has 40-60 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Who it's for

This course is for people with responsibilities that include fire prevention, fire risk assessment and risk control.

Overview

The NEBOSH Certificate in Fire Safety course provides the necessary training for students to understand the requirements involved in carrying out fire risk assessments and embeds good practice in the workplace.

Upon completion of the NEBOSH Certificate in Fire Safety course, learners will have the skills to assist their organisation in meeting their legal fire safety obligations.

This new Fire Safety course from NEBOSH replaces the two older versions (National & International) into a new unified qualification. Due to this update from NEBOSH, this course is now suitable for those working anywhere in the world.

What can I do?

This certificate teaches you specialised knowledge in fire safety and risk assessment. It qualifies you to implement robust fire safety measures, conduct thorough assessments, and ensure compliance with fire safety regulations. This certification is a valuable asset for safeguarding lives and property in various industries.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH International Technical Certificate in Oil and Gas Operational Safety

Study Time

This course has 55 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Who it's for

This course is aimed towards those already experienced in the field of Oil & Gas.

Overview

The qualification focuses on international standards and management systems, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore.

The Certificate also highlights the importance of process safety management in the oil and gas industry. There are no specific entry requirements for this qualification, however it is highly recommended that students have an existing underpinning knowledge of safety issues or have completed a NEBOSH Certificate level qualification previously.

What can I do?

Completing the NEBOSH Oil & Gas Safety Certificate equips you with the expertise to manage safety in the oil and gas industry.

You'll confidently navigate complex safety regulations, identify and mitigate industry-specific risks, and contribute to a secure and compliant work environment, making you a valuable asset in this critical sector.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH HSE Certificate in Process Safety Management

Study Time

This course has 48 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

HSE Managers

Who it's for

This course is for managers, supervisors, safety representatives and health and safety advisors working within process industries.

Overview

This certificate is suitable for people working in industries such as oil and gas, chemicals, plastics and pharmaceuticals.

A globally recognised qualification designed for those working within process industries at supervisory level and above.

Upon completion of this HSE Certificate in Process Safety Management course, learners will have the skills to assist their organisation to understand the difference between “process safety” and “personal safety”.

What can I do?

Completing the NEBOSH HSE Certificate in Process Safety Management allows you to excel in ensuring the safety of industrial processes.

You will have the skills to identify and mitigate potential hazards, enhance operational safety, and comply with regulatory standards.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH Health and Safety Management for Construction (UK) Certificate

Study Time

This course has 116 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Who it's for

This course is aimed at construction personnel and managers with health, safety, and welfare advisory roles.

Overview

The NEBOSH Health and Safety Management for Construction (UK) course focuses on best industry practices for managing and implementing safety management systems.

The Construction Certificate is designed to cover general health and safety issues within a construction context as well as placing emphasis on the specific construction issues that make the industry amongst the most dangerous in which to work.

What can I do?

Completing the NEBOSH Construction Certificate (UK) empowers you with the expertise to manage safety and health in construction.

It qualifies you to assess risks, implement preventive measures, and ensure the well-being of workers, making you an invaluable asset in the construction industry's pursuit of excellence in safety standards.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH Health and Safety Management for Construction (International) Certificate

Study Time

This course has 156 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Who it's for

This course is aimed at construction personnel and managers with health, safety, and welfare advisory roles.

Overview

The NEBOSH International construction safety certificate is designed for the wider market (outside the UK), and will enable learners to become competent in making construction activity safe, while complying with national and regional legislation.

Upon completion of this NEBOSH Health and Safety Management for Construction (International) course, learners will have the skills to assist their organisation in meeting their legal construction safety obligations. Learners will also understand how to identify and control construction site hazards and advise on risk management.

What can I do?

Completing the NEBOSH Construction (International) Certificate equips you with global competence in construction health and safety.

This certificate enables you to confidently oversee safety compliance, manage risks, and promote worker well-being on construction sites worldwide. You will gain the skills to excel in international construction projects and ensure a safer, healthier environment for all.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NEBOSH Environmental Management Certificate

Study Time

This course has 67 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Assistant Managers

Who it's for

This course is aimed at those looking to embark on a career in environmental management or who have environmental responsibilities for their organisation.

Overview

The NEBOSH Environmental Management Certificate is designed to provide a sound basis for progression on to a NEBOSH Diploma in Environmental management.

The NEBOSH Environmental Certificate will benefit companies who are seeking to implement effective environmental management systems, ensuring that line managers have an understanding of the principles of managing environmental risk. This qualification is relevant to all industry sectors.

This NEBOSH Environmental Certificate course is suitable for those working anywhere in the world.

What can I do?

Completing the NEBOSH Environmental Certificate empowers you to lead in environmental management. You will gain expertise in assessing and mitigating environmental risks, ensuring regulatory compliance, and championing sustainability.

This course can open doors to careers in diverse industries, making a positive impact on the planet by safeguarding its natural resources and ecosystems.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.

NVQ level 3 Certificate in Occupational Health and Safety

Study Time

This course has 310 hours of study time required.

Course Access

You have access to this diploma for 24 months from the date of purchase.

Assistant Managers

Who it's for

This course is aimed at mid-level managers, supervisors, and workers with health and safety responsibilities.

Overview

Studying the NVQ level 3 Certificate in Occupational Health and Safety Practice, candidates will develop their knowledge and practice the skills required to manage regular workplace duties from an occupational health and safety perspective.

Candidates learn, develop, and practice the required skills for progression within the Health and Safety industry, whilst continuing to manage their regular workload.

What can I do?

Completing the NVQ Level 3 Certificate in Occupational Health and Safety helps you to become a proficient safety professional. You'll master risk assessment, compliance, and accident prevention, ensuring workplace well-being.

With this qualification, you can lead safety initiatives, protect employees, and create secure environments for businesses and industries.

7 Employee Benefits of SHEilds eLearning qualifications

Being able to show that you are competent in your work and able to demonstrate the knowledge and skill required to perform at the recognised occupational standard.

Further your professional development and increase your career prospects by developing transferable skills recognised and valued by employers universally.

Improve your job satisfaction, confidence, and drive to succeed in your occupation.

A flexible way of gaining a recognised and respected qualification, with no requirement to have already completed other formal qualifications.

Recognised route to professional memberships with globally recognised professional institutes.

Examinations are available globally. SHEilds students are not fixed to a specific exam date, exam dates can be selected when a student feels confident.

Globally recognised qualifications can give you an advantage in the workplace for promotion and job security.

8 Employer Benefits of SHEilds eLearning qualifications

Value for money - course access is unlimited during the study period, allowing students to study 24 hours a day 7 days a week.

The course is accessible from any PC with internet access allowing study in the workplace or from home, minimising disruption, and downtime to business.

Increased staff productivity, efficiency, and performance.

Increased motivation and job satisfaction for employees.

Students can start the qualification at their capability level, and no prior qualifications are required.

Ensuring staff are working to up-to-date standards and best practices within their field enables employees to gain well recognised and respected qualifications.

Demonstrates a commitment to quality and continuous improvement.

When employees have globally recognised qualifications, this can help when tendering for contracts with some organisations and towards quality standards.
