Who is this for?

Employees required to provide routine day-to-day advice on fire related issues and non-specialists looking to acquire a breadth of knowledge on the subject. This qualification is ideal for those working as or intending to work as Health and safety managers, Facilities managers, health and safety representatives within businesses and those responsible for fire safety in low to medium risk workplaces.

Overview

This Fire Safety qualification is aimed at those who are required to provide day-to-day advice on fire related issues in the work environment.

The Fire Certificate has been designed for managers, supervisors, employee representatives and those embarking on a role with fire safety responsibility, preparing holders to contribute to the conduct and review of fire risk assessments and fire preventive and protective measures within the workplace. The syllabus is based on National Occupational Standards in Fire Safety at level 3, which has common units with the Emergency Fire Services National Occupational Standards.

Did you know?

This qualification can help you protect people, property and ultimately your business from the harm a fire can cause.
