Qualification overview

Who is the qualification designed for?

Anyone involved in managing workplace health and safety risks including those who undertake risk assessments. The content will be particularly useful to employers, managers, supervisors, SHE champions and union and health and safety representatives.

Benefits for students

The NEBOSH HSE Award in Managing Risk and Risk Assessment at Work is an introductory level qualification. It is structured around the health and safety regulator for Great Britain, the Health and Safety Executive's approach to controlling the risks caused by workplace hazards.

You will learn how to:

- Identify hazards and be aware of some of the resources that can help
- Assess risks in low to medium risk premises using simple HSE tools
- Evaluate risks in a proportionate and sensible manner
- Identify suitable control measures

Benefits for employers

The NEBOSH HSE Award in Managing Risk and Risk Assessment at Work will help you to:

- Have confidence as your team will be trained in HSE's current approach to health and safety risk management
- Ensure your organisation has valuable in-house risk management expertise
- Upskill your teams so they can carry out risk assessments in the right way and to the right standard
- Create a safe and healthy work environment

Notional learning hours

It is expected that this qualification will be delivered over the equivalent of one day (depending on the mode of study).

Programmes offered by NEBOSH Learning Partners

Details of NEBOSH Learning Partners throughout the world can be found on NEBOSH's website.

Please contact the Learning Partners directly to find out how their course will be structured.

Syllabus summary

| Element summary | | Learning outcome | Assessment criteria |
|-----------------|--|---|---|
| | | On completion of this course the learner will be able to understand: | |
| 1 | Why manage health and safety risks | The reasons for managing health and safety risks including competence of those involved and the importance of consultation with relevant workers. | Complete risk assessment case study which identifies a range of identified hazards and meets best practice standards ('suitable and sufficient'). |
| 2 | Managing risk: <ul style="list-style-type: none"> Identifying and understanding the risks Managing risk <ul style="list-style-type: none"> Controlling the risks | Effectively manage risk, which will involve identification and understanding of risk potential and its control. | |
| 3 | Managing risk: Sources of information and the application of HSE risk assessment tools | Where to find sources of information to help identify and manage risk, and the application of the HSE risk assessment tools. | |
