NQF Level 6	HSE Managers 	
Study Time 	Course Access 	Average Completion

Who is this for?

Aspiring occupational health & safety practitioners (OHASPs) requiring a strong core knowledge and higher-level management with health and safety responsibilities. Completion of a NEBOSH National General Certificate is highly recommended.

Overview

The NEBOSH National Diploma for Occupational Health & Safety Management Professionals (2021 Publication) provides the knowledge and understanding that underpins competent performance as an Occupational Health and Safety Provider (OHASP).

This core knowledge is transferable between the different occupational sectors in which OHASPs may work across industry, commerce and the public sector. There are no prerequisite entry requirements, though students will find it helpful to have completed the National General Certificate first. Students should also be aware that this is a demanding qualification - approximately equivalent to an honours degree level - and therefore may find it very difficult if they do not have this background knowledge and/or the ability and application to study at this level.

Did you know?

By completing the NEBOSH NG course prior to undertaking this qualification, you will have the required prior learning which will provide the underpinning knowledge of the core subject; therefore making you better prepared for your NEBOSH Diploma studies and potentially helping to increase your pass rate.

Assessments

Available in October

x1 Written Assignment	x2 Scenario Based Case Studies
--	---

Further Development

	Equivalent Qualification Honours/ Intermediate Degree
	Further Development Masters Degree

Membership*

GradIOSH	ASP/CSP	MIIRSM	RMaPS
