Level 6 Diploma/
NEBOSH Diploma/

Who is this for?

People with construction management responsibilities or employees required to provide routine advice on health, safety, and welfare in construction. This qualification is ideal for those currently working as or planning to train as Construction site managers, Contract's managers, Site workers with health and safety responsibilities and Construction health and safety advisors.

Overview

The NEBOSH Construction Certificate is a qualification both for those with construction management responsibilities and those required to provide routine advice on health and safety in construction.

The Construction Certificate is designed to cover general health and safety issues within a construction context as well as placing emphasis on the specific construction issues that make the industry amongst the most dangerous in which to work. Students will find it helpful to have already achieved certification of the NEBOSH General Certificate first as this greatly improves a students' potential end-result.

Did you know?

The assessment is an open book examination, which will be based on a realistic scenario, that will test both what you know and what you can do. You will have 48 hours to download, complete and submit your assessment.
