Who is this for?

People with international management responsibilities and employees required to provide routine advice on health, safety and welfare in construction. This qualification is ideal for those currently working as or planning to train as Construction site managers, Contract's managers, Site workers with health and safety responsibilities and Construction health and safety advisors.

Overview

The International Construction Certificate is designed for supervisors and managers within the international construction industry.

This qualification is designed to provide a sound breadth of underpinning knowledge that enables them to discharge more effectively their duties with respect to health and safety in construction activities. It is also designed to cover general health and safety issues within a construction context as well as placing emphasis on the specific construction issues that make the industry amongst the most dangerous in which to work.

Did you know?

The assessment is an open book examination, which will be based on a realistic scenario, that will test both what you know and what you can do. You will have 48 hours to download, complete and submit your assessment.
