This course has 40-60 hours of study time required.

Course Access

You have access to this course for 12 months from the date of purchase.

Who it's for

This course is for people with responsibilities that include fire prevention, fire risk assessment and risk control.

Overview

The NEBOSH Certificate in Fire Safety course provides the necessary training for students to understand the requirements involved in carrying out fire risk assessments and embeds good practice in the workplace.

Upon completion of the NEBOSH Certificate in Fire Safety course, learners will have the skills to assist their organisation in meeting their legal fire safety obligations.

This new Fire Safety course from NEBOSH replaces the two older versions (National & International) into a new unified qualification. Due to this update from NEBOSH, this course is now suitable for those working anywhere in the world.

What can I do?

This certificate teaches you specialised knowledge in fire safety and risk assessment. It qualifies you to implement robust fire safety measures, conduct thorough assessments, and ensure compliance with fire safety regulations. This certification is a valuable asset for safeguarding lives and property in various industries.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.
