HSE Managers

Who it's for

This course is for managers, supervisors, safety representatives and health and safety advisors working within process industries.

Overview

This certificate is suitable for people working in industries such as oil and gas, chemicals, plastics and pharmaceuticals.

A globally recognised qualification designed for those working within process industries at supervisory level and above.

Upon completion of this HSE Certificate in Process Safety Management course, learners will have the skills to assist their organisation to understand the difference between “process safety” and “personal safety”.

What can I do?

Completing the NEBOSH HSE Certificate in Process Safety Management allows you to excel in ensuring the safety of industrial processes.

You will have the skills to identify and mitigate potential hazards, enhance operational safety, and comply with regulatory standards.

*NEBOSH recommends that learners taking this certificate level qualification be at an IELTS level 6 or above.
